1. The following is an examiner's statement of reasons for allowance: the amendment filed 5/6/2005 has overcome the prior art of record. The prior art of record fails to teach or fairly suggest a comparator coupled to an output of the counter an OR/NOR gate coupled to an output of the comparator, a feedback path coupling the output of the comparator to the counter as called for in claims 1 and 15, resetting a counter utilizing the active high reset signal, comparing a counter output value and a counter-associated value in a comparator to obtain a comparator output value and applying an OR logical operation to the comparator output as called for in claim 22. Therefore, claims 1-20 and 22-30 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
